

WATERPROOF POCKETSIZE pH-METER CP-105

- **CP-105** enables measurements of pH, redox (mV) and temperature.
- Designed for field work.
- Used for measurements:
 - in clean water with low deposits content - with **GP-105** head,
 - in waste water, water with deposits, soil - with **GP-105 s** head (optional),
 - for redox (mV) measurements – with **GR-105k** head with cable.
- Fully waterproof, floats on the surface of water.
- Size of a tester, accuracy of a laboratory meter.
- 1 to 3 point calibration.
- Automatic detection of buffer solutions 4,00, 7,00, 9,00 pH or 4,00, 7,00, 10,00 pH option
- Automatic temperature compensation.
- Powered with batteries (3 x LR44).
- Long-lasting work on one battery set (about 200 h of continuous work).
- Automatic switch off function protects the batteries against discharging.
- Warranty: 24 months.

Function	Range	Accuracy (± 1 digit)	Temp. compen.	Input impedance	Weight/ Power	Dimensions mm
